Comment : I'd like to expand the functions I could handle during an emergency. By not having to learn morse code at my age & with my learning disability I think I could easily qualify for a Ham License & help in the emergency net. I have a home generator & so I could provide power for a ham station. My community was denied electricity & communication for 10 days during the first hurricane that hit us last year & 5 days during the second. Being able to easily communicate by voice would have alleviated a lot of anxious people. There are 365 homes in our community.
